Subj - Appointment of two Assistant Health Officers, with the necessary establishment, in the Bangalore city Municipality to pay greater attention to the Sanitation, Collection of Statistics, etc -

The Health Officer, Bangalore city has reported that due to the formation of many extensions and acquisition of some villages adjacent to the city, the work of the Health Section has considerably increased The existing establishment is found inadequate to exercise effective supervision as the area of the city the population, the number of houses, the Conservancy Lanes, the number of Latrines etc have disproportionately increased The undermentioned lines of work are stated to require early attention —

1) Frequent inspection of the interior of the city as to check the insanitary customs and to enforce the provisions of the public Health Act

2) Periodical and frequent inspection of the Hotels

3) Enforcing rigorously the bye laws in regard to all trades in the Municipality

4) Systematic inspection of markets

5) Investigation into the outbreaks of typhoid and other diseases and taking preventive measures

6) Improving the Vaccinal State of citizens

7) Improving the registration of births and deaths

With a view to achieve the above objects the City Municipal Council have resolved that the additional establishment noted overleaf may

be entertained

No	Designation	grade pay	Cost Rs
2	Addl Health Officers	Rs 75-3-150 + 24 c A (each)	281 1/3
4	Clerks	Rs 85-1-40	135
4	peons	Rs 12 (each)	48
	House rent for two buildings for locating the offices at Rs 30 each pm		60
	Total		Rs 524 1/3

The proposals involve an extra cost of Rs 6292- per annum as intimated by the Comptroller

Both the Municipal Commissioner and the Director of public Health have recommended sanction to the above proposal —

It seems necessary to obtain a statement showing the existing establishment of the Health Section and details of duties assigned to each with reference to the jurisdiction allotted.

Four additional clerks appear to be excessive

Submitted for orders

The necessity for strengthening the Health staff of the municipality has been clearly explained in the Health Officer's note dated 18-6-19 in view of the expansion of the city in several directions and the increase in population, the need for maintaining the sanitary conditions of the city on a satisfactory level is great

It is therefore proposed to increase the Superintendent's establishment as proposed in the Health Officer's agreeable to all. The extra expense on this account is estimated at Rs. 1,6,792 per annum. As previous experience has shown, the Bill grants for 19 fall short, hence the proposal

The proposal may perhaps be sanctioned with the modification that instead of four clerks, two clerks only need be given for the present. Forwarded

It is not possible for the Health Officer to cope with the work especially during epidemics with only two clerks. Complaints of neglect are often heard. The establishment proposed is reasonable & each Asst H O may have two clerks.

May be sanctioned as proposed
